GREAT JOB GUYS!!!

MAINTENANCE: Just to reiterate....If you have any kind of maintenance issue with either your truck or a trailer- please call it in to the office **at the time the issue occurs**. IF it is a Friday, you will definitely need to call it in earlier in the day. If you try to call at 4:45pm on a Friday afternoon, you'd be best to ask for the shop (especially if it is a major issue), AND make sure to put a note in your truck. Obviously if the issue just happened that's understandable. But reporting on Friday on your way in for the weekend is not good timing from the shop's perspective and planning purposes. The whole purpose of the maintenance reporting is for planning and parts ordering purposes. Some of you are still calling in your issues when you're on your way in....**if you know your truck has an issue, call it in as it occurs**.....Thank you so much for your cooperation. Cindy (and the shop)

WELCOME TO THE KARL'S TEAM~

If you see these newbies on the road, please welcome them aboard and make them feel a part of the team!

Fueling in the yard

Note: Your bonus could be affected if you fail to record your fuel from the yard on the actual day. Those gallons that were added to the next quarter could have been added to the previous qtr but because of the way you recorded it on the sheet in the yard, you didn't make the bonus.

Please make sure you record it properly, and record it on both the sheet by the fuel pump and on your fuel and mileage report.

Gina has spent too many hours chasing down non-recorded entries.
