

CONTACTING PERSONNEL: When attempting to contact someone in dispatch or shop; please leave a message if they do not answer and they will get back with you as soon as they see the message. Sometimes they aren't where they can answer the phone but will get to it as soon as they are able. Please give them a few minutes before attempting a 2nd person. It is very frustrating when they hear your voice mail, call you back only to find out you then went on to call someone else...we do want to help solve your issue.) Thanks for your patience....
